

Ecosphere Technologies | ESPH.OB | Summary | Profile

Ecosphere Technologies, [ESPH.OB](#), is a diversified engineering and technology company, engaged in clean technologies and services.

The company designs and builds mobile water filtration equipment, waste water treatment and provides water recycling services to the energy exploration companies.

Ozonix®

The company's patented Ozonix technology is primarily used by the gas and oil companies for treatment and recycling of water used in fracking. The technology eliminates, bacteria and reduces scaling, eliminating the need to dispose the contaminated water. This process helps

Oil&Gas companies save money and improve productivity.

Mobile, High-Volume Fluid Reclamation:

-

Ozonix® Eliminates Liquid Chemical Biocides

-

Provides Rapid On-Site Water Reclamation

-

Oxidizes Contaminates, Killing Bacteria and Destroying Bacteria Cell Walls On-the-Fly

-

Eliminates Costly Biocides and Reduces Scale Inhibitors Needed for Corrosion Control

-

Eliminates the Costs Associated with Waste Separation, Transportation & Disposal

-

High-Volume Water Treatment Capabilities allow for

Quick Turnaround Time and Increased Utilization

-

Self-Contained Ozonix® Systems offer Minimal Mobilization and Demobilization Arrangements

-

Environmentally Safe, Eliminating Hazardous Waste Byproducts and Residual Pollutants

-

Ozonix® Preserves Natural Water Resources Minimizing Customers' Carbon Footprints

The Shale Gas industry is expanding at a rapid pace, waste water treatment, recycling and chemicals used in the process of fracking is a major environmental concern. The company's has developed a technology that doesn't require any chemicals. The company has a great technology serving the growing need of Oil & GAS, Mining Industries and Municipalities, and an Excellent management team, Keep an eye!
