Make My Trip to the Bank

MMYT up 88%

We Alerted our Members ahead of time, we went through reams of Data and researched all the sources that are available to make sure that we get this right. Despite the Broad Market getting beaten up for last few days.

We thought the Two IPO's we profiled are great for long term investors, who could afford to invest their risk capital for huge gains.

We are glad that our members were able to profit handsomely.....

The mighty, Make my Trip was a real treat, it was a TRIP to the BANK, a whopping 88% Gainer for our Members!!!!
