Hot Stock Picks for Tuesday 07-05-11

INO - Inovio Pharmaceuticals is engaged in the discovery and development of DNA vaccines with a focus on cancers and infectious diseases.

The Company's SynCon technology enables the design of DNA-based vaccines capable of providing cross-protection against new, unmatched strains of pathogens, such as influenza. Its DNA delivery technology uses controlled electrical pulses to enhance cellular DNA vaccine uptake.

Inovio Pharma has successfully tested its vaccine on primates, its a major break through that could lead to a human vaccine in the near future. Very Attractive, Speculative.

CTYR - CytRx Corporation, a biopharmaceutical research and development company specializing in oncology. The company's drug development pipeline includes treatment for pancreatic cancer, gastric cancer, and soft tissue sarcomas.

The company's drug INNO-206 has been granted FDA's Orphan Drug designation for the treatment of Soft Tissue Sarcoma. CYTR has strong pipe line, many drugs are in Stage II clinical trials, Very Attractive, Speculative.
