OPXT – Opnext designs and manufactures optical subsystems and modules for communication. Its optical transceiver modules convert signals between electrical and optical for transmitting and receiving data over fiber optic networks, and provide the physical communications interface for data communications and telecommunications systems. **Attractive, keep an eye**

CLWR - Clearwire provides wireless broadband services. The company builds and operates mobile broadband networks that provide high-speed mobile Internet and residential access services, as well as residential voice services in communities in the United States.

Clear Wire the 4G Wireless Pioneer and Sprint backed company, looks very attractive at this level, bouncing back from 52WK Lows, keep an eye.
