

BIOF: a spectacular success for our members. The stock has gained a whopping 300% since the Alert!

BIOF - **BioFuel Energy** produces Ethanol and its co-products in the United States. The company offers dried and wet distillers grains with solubles, and carbon dioxide. It operates two ethanol production facilities located in Wood River, Nebraska and Fairmont, Minnesota with a combined production capacity of approximately 220 million gallons a year.

PEIX - **Pacific Ethanol**, produces and markets low carbon renewable fuels in the western United States. The company offers ethanol and its co-products, including wet distillers grains. It also provides transportation, storage, and delivery of ethanol through third-party service providers.

BioFuel Energy (BIOF) and Pacific Ethanol (PEIX) are the only two large remaining Ethanol producers in the country.

BIOF and PEIX both are bouncing back from historic lows. We were among the first to notice the Low Valuation of these stocks.
