Hot Stock Picks for Wednesday 07-27-2011

MYRX - Myriad Pharmaceuticals, a biotechnology company is developing small molecule drugs for the treatment of cancer. The company's product pipeline includes clinical and pre-clinical product candidates with mechanisms of action and novel chemical structures.

Its product candidates in clinical development include Azixa (MPC-6827), which is under Phase II clinical trial for the treatment of metastatic melanoma. In addition the company has a strong pipe line of drugs under development.

Very Attractive, must be on your list.
